**GENERAL REQUIREMENTS FOR SWIMMING POOL INSTALLATION:**

- Approved Zoning Permit including site plan indicating water area, patio or deck if any, fence locations, all existing structures and all dimensions.
- Approved Swimming Pool Permit
- Electrical Permit with approved final inspection. All work must conform to the current National Electrical Code, Section 680. Note: All in-ground pools require an underground electrical inspection prior to pouring the base.
- Building Permit required for any elevated deck, patio, etc. not designed and/or built as an integral part of the pool structure.
- Fully enclosed pool area with acceptable minimum four foot high fence (see Pool Fence Regulations sheet).
- Ten foot minimum distance to property lines in most areas, as measured from water's edge (six foot in R1A areas only, and more may be required for corner lots (1173.08).
- Elevated decks, patios, etc. shall not be located closer than ten feet to any lot line (more may be required for corner lots as per 1173.08).

**NOTE: ALL PERMITS SHALL BE OBTAINED AND APPROVED PRIOR TO CONSTRUCTION.**

I hereby declare that all above and attached information is correct and that all required inspections will be scheduled with the Zoning Department at 666-0210.
