

Public Safety Committee Public Meeting/Hearing

March 10, 2014

The meeting was called to order at 5:00 p.m. by Chairman Councilman Daniel Wagner

1. Present were:

Councilman Daniel Wagner
Councilman Larry Oberdorf
Councilwoman Caroline Eckel
Police Chief Glenn Goss
Fire Chief Josh Drouard
Deputy Fire Chief Ryan Stautzenbach
City Administrator Edward Ciecka

2. Chiefs Drouard and Goss submitted a proposal for the ALERT system for records management and Dispatch software.

The current contract for the outdated service will expire June 30, 2014.

The purchase price and implementation services will cost \$126,500.00

Implementation service includes training of personnel and conversion of old records to the new system.

The system will be shared with Walbridge and Lake Township to offset overall costs.

The City of Rossford's share will be \$59,916.50. There is an annual maintenance fee of \$30,324.00. Rossford's share of that will be \$12,897.81. Mr. Ciecka stated that the Casino fund could be utilized for the purchase.

The committee voted unanimously to present the proposal to the full council membership for acceptance of the bid.

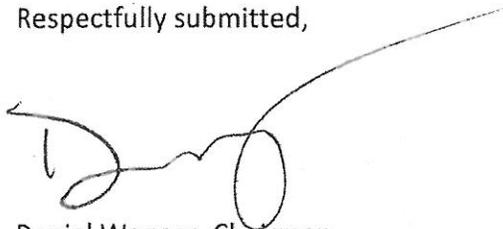

3. Chief Drouard submitted a quote from Burgess Hearse and Ambulance Sales, Inc. for the remount of the old squad box to a 2014 Ford e-450 XL Gasoline chassis. Ford Motor Company currently has a \$4500 rebate offer for eligible departments. Turnaround time is approximately six to eight weeks. Chief Drouard has been seeking a loaner vehicle for that time period. A copy of the quote was delivered to each council person via their

mailbox. The committee voted to present the quote to the full council membership for approval.

4. Chief Drouard reported to the committee that in 2013 there were 98 emergency runs from 1600 hours to 1800 hours. In addition there were 108 runs after 0000 hours. The committee requested the Chief research how many of those runs required additional tone outs when adequate number of personnel had not arrived after the first request. The committee also requested the response times for those runs. The committee wants information on when the call comes into dispatch and when Rossford Fire Department has personnel on scene.
5. Committee discussed the 24 hour parking ordinance and the Police Department's ability to tow vehicles found to be in violation. Chief Goss stated the current ordinance does not allow them to remove a vehicle in the necessary time frame to assist in snow removal. The committee discussed whether a snow emergency ordinance would be more practical.

Adjournment: Motion made and seconded for adjournment. All members agreed.
Meeting adjourned 1835 hours.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Daniel Wagner', with a long, sweeping horizontal line extending to the right from the end of the signature.

Daniel Wagner, Chairman

January 23, 2014
