

SUGGESTED STREET TREES

All street trees should be straight with single trunks and a minimum caliper of 2-1/2" and insect/disease resistant

LARGE TREES – Mature height of 50'+

- Plant only where planting strip is a minimum of 8' wide and no overhead utility lines.
- Also good for within owner's property.

Emerald Ash Borer Warning: While both White and Green Ash (*Fraxinus American* and *pennsylvanica*) have been successful street trees, both are infested in nearby communities by this destructive borer as we go to press. Therefore, we are suspending their planting.

Hackberry – *Celtis occidentalis*

Ginkgo – (males only) *Ginkgo biloba*

Thornless Honeylocust – *Gleditsia triacanthos* 'Moraine', 'Skyline', 'Shademaster'
